

## OUR SOLUTION

We are a **med-tech** solution that **identifies patients with high cardiovascular risk** through a **2 week program** that **automates blood pressure** and **cardiovascular evaluation** without interrupting your workflow.

## CARDIOTRACK BLOOD PRESSURE SCREENING

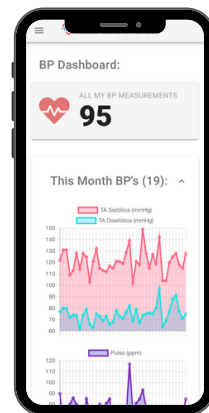

### AT-WORK BLOOD PRESSURE SCREENING MODULE

- 90 seconds automated measurements and survey.
- Patients will need 4 - 6 blood pressure readings in a 2-week period.
- Optionally create an account to keep tracking anonymously.
- Quick, portable and easy online registration through QR code.

### CARDIAC HEALTH DASHBOARD

- Confidential traceability of results.
- Follow up in our web-app for a more comprehensive cardiac evaluation.
- Exclusive health content: Personalized tips and diets.
- Registered users:
  - Private cardiovascular risk ratio.
  - Share with your physician.
  - 10 minute consultation with a health professional.
