

GHUBEE

Who we are

We are a company specialized in transportation system integration. Our focus is to automate the communication-integrated systems of transportation vehicles through next-gen networks, AI and machine learning, IoT, big data, cybersecurity and 5G in the best possible way and at the lowest possible cost.

We believe that expanding a company's culture to new technologies is necessary to remain in the current market. In addition to reducing costs and increasing productivity, integrating digital services into the organization's system is essential to be present in the new economy.

GHubee is a platform that provides digital services to the automotive and transportation sectors worldwide. Our product connects digital platforms, systems, and devices.

Our headquarters is located in Ontario, CA. We also provide information technology consultancy specializing in systems integration and other software development services to the US and Brazil's automotive and transportation sectors.

With GHubee, your company will integrate systems, allowing rapid innovation, without bureaucracy and without the need for large investments.

Entry	Corporate
Starting at US\$600,00 /month	Customized price
Priced per workflow	Build your needs

Market Size

40 million trucks

2 billion trips

US\$791 billion shipping
