INTEGRATIONS

Anna seamlessly integrates with various healthcare systems and wearable devices, allowing you to centralize your health data in one place. It can sync with popular health apps and devices such as Apple Health and Fitbit, providing a comprehensive view of your health metrics.

EXERCISES

Anna offers customized exercise programs tailored to your specific needs. Whether you're looking to improve mobility, strength, or flexibility, the platform provides guided exercises and tracks your progress. With Anna, you can stay active and maintain a healthy lifestyle.

MEDICATIONS

Anna simplifies medication management by offering a range of features. It provides medication reminders, ensuring you never miss a dose. You can track your medication intake and receive alerts for refills. Anna also offers an interaction check to identify potential conflicts between different medications.

GAMES

Anna understands the importance of mental stimulation and social engagement. It offers interactive games and activities designed to enhance cognitive function and promote social interaction. Engaging with these games can be both fun and beneficial for individuals of all ages.
